---	--

The TGM Group is a multi-disciplinary engineering; surveying and town planning consultancy practice, servicing a wide range of clients from our offices in Melbourne, Geelong, Ballarat and Ballina. We are currently seeking applications from suitably qualified Civil Design/Drafters or Civil Engineers to join our civil engineering design consultancy teams in our Melbourne or Geelong offices.

Our design consultancy team is a young, energetic and dynamic group of experienced professionals that work collectively to achieve great outcomes for their clients. If you are enthusiastic, ambitious, looking for a work environment that challenges and grows your professional skills, then TGM may be the place for you.

Key Duties:

These roles require the skills and experience that will contribute to the civil engineering design/drafting demands within of our Land Development, Infrastructure and Project Management teams, ensuring quality standards and delivery timelines are achieved. Key duties include;

- Undertake civil engineering design/drafting projects as required;
- Liaise with client and government authorities, on a range of issues and provide technical input as required to obtain all relevant approvals;
- Maintain and improve TGM engineering and design standards;
- Ensure all statutory requirements are achieved.

Essential attributes;

To be successful in these roles, you will have the relevant qualifications and at least 2 to 5 years of civil design/drafting experience within the land development and infrastructure industry. In particular, we are looking for;

- A proven ability to use civil engineering design software, including; 12D (highly regarded), AutoCAD, Drains and PC Drains;
- Demonstrated experience in design/drafting of drainage, sewer and water infrastructure for land development, stormwater drainage infrastructure, rural and urban roads etc;
- Demonstrated understanding of the relevant Australian Drafting Standards;
- Experience with maintaining client relationships, establishing client needs and effectively documenting their requirements;
- Demonstrated experience with relevant authorities and contractors;
- Must hold a current drivers license and be eligible to work within Australia.

As a person, you will have;

- A proactive, energetic attitude and a willingness to learn;
- A focused approach to the task, with an ability to complete set tasks within defined time limits and work co-operatively in a team environment;
- Attention to detail, commitment to quality and following safe working practices;
- Excellent communication and customer service skills;
- An ability to work independently and unsupervised when required,
- A willingness to travel and work in different locations.

Salary;

- TGM provides a competitive remuneration structure that rewards effort and output. The salaries for these roles will be governed by the skills, competencies and experience the individual can bring to the role.

Who is TGM?

TGM has demonstrated solid growth over the past 10 years and has become a significant Victorian consultancy practice, by supporting our Clients in Infrastructure, Land Development, Commercial, Industrial and Residential building projects through our Civil, Structural, Hydraulic, Engineering, Surveying and Planning consultancy services.

With a team of more than 120 Professional and Technical staff, TGM has the resources to manage small and large scale projects from anyone of our four offices in Melbourne, Geelong, Ballarat and Ballina.

As a team, we enjoy the benefits of working on both metropolitan and regional projects and assisting a wide selection of client groups on projects ranging from domestic housing to major infrastructure, commercial and industrial developments. Our success has been built around a reputation for responsiveness, customer focus and quality.

What does TGM offer?

- Diversity and variety of work with fantastic projects
- A multi disciplinary team of surveyors, engineers & town planners
- Modern offices and a supportive work environment
- Ongoing training, professional and career development programs
- The latest IT hardware/software, which is regularly upgraded
- Flexible and Family friendly work environment
- Support for staff involved in community activities and sporting pursuits

How to apply & further Details
